Schedule of Service and Protection (Services)

Page 2 of 2

ANY OR ALL SERVICES PROVIDED BELOW ARE DEFINED IN AND SUBJECT TO THE TERMS AND CONDITIONS OF THE ATTACHED AGREEMENT DATED May 1, 2008 BETWEEN STANLEY CONVERGENT SECURITY SOLUTIONS, INC. AND Irff & Sons, Suko 460 FOR SERVICES AT Alpharetta, Ga. 30005	
Preventative Maintenance	
<input type="checkbox"/> Preventative Maintenance Scheduled preventative maintenance. The scheduled appointment includes a visual inspection of devices, walk-test of system components, cleaning of devices as needed and verification of communication link. Includes access to the PNC TAC - Technical Assistance Center (24x7). System repair, equipment replacement and lift rentals are excluded.	
<input type="checkbox"/> Access Control Preventative Maintenance Scheduled preventative maintenance. The scheduled appointment includes a visual inspection of devices, walk test of system components, cleaning of devices as needed and may, for PC based systems, include programming back-up and software patch updates (as available). Includes access to the PNC TAC - Technical Assistance Center (24x7). System repair, equipment replacement and lift rentals are excluded.	
<input type="checkbox"/> Basic QIP Home Security Inspection Plan Scheduled inspection provided for home security systems. The QIP inspection includes "10 Point Test & Inspect" procedure by a service technician. 1-800 Toll-free alarm transmission service and access to the PNC TAC - Technical Assistance Center (24x7). Equipment repair and replacement are excluded.	
<input type="checkbox"/> Advanced QIP Home Security Inspection Plan Scheduled inspection provided for home security systems. The QIP inspection includes "10 Point Test & Inspect" procedure by a service technician. 1-800 Toll-free alarm transmission service, access to the PNC TAC - Technical Assistance Center (24x7), 10% discount on repairs and new equipment throughout the plan term and transmitter batteries replaced as needed. Five (5) battery limit per inspection.	
<input type="checkbox"/> Premium QIP Home Security Inspection Plan Scheduled inspection provided for home security systems. The QIP inspection includes "10 Point Test & Inspect" procedure by a service technician. 1-800 Toll-free alarm transmission service, access to the PNC TAC - Technical Assistance Center (24x7), 15% discount on repairs and new equipment throughout the plan term, transmitter batteries and alarm control battery replaced as needed. Ten (10) battery limit per inspection for transmitters.	
Fire Alarm Test & Inspection	
<input type="checkbox"/> Monthly Test & Inspection	<input type="checkbox"/> Quarterly Test & Inspection
<input type="checkbox"/> Annual Test & Inspection	<input type="checkbox"/> Semi Annual Test & Inspection
Scheduled tests and inspections. The scheduled appointments include a visual inspection of devices, operational records. Tests and inspections are documented and provided for customers. Test of system components and verification of communication link. Includes access to the PNC TAC - Technical Assistance Center (24x7). System repair, equipment replacement and lift rentals are excluded.	
Embedded Customer Support	
Customer agrees and acknowledges that Stanley CSS is not an employment agency. Customer and its agents agree that they will not solicit or hire on-site or embedded Stanley CSS employees for a period of five (5) years.	
<input type="checkbox"/> Embedded Technical Specialist Technical Specialists work at the customer location to assist in day-to-day tasks regarding the system operation and technical application. This support can be customized to include repair service work, programming, test & inspection and other technical requirements.	
<input type="checkbox"/> Embedded Administrative Specialist Customer Support Specialists work at the customer location to assist in day-to-day tasks regarding the administration of security accounts. A support specialist can assist with questions, coordination and administration of installation, service, monitoring, account management and billing matters.	
<input type="checkbox"/> Embedded Project Manager A Stanley Embedded Project Manager works on-site to coordinate scheduling, material delivery, Stanley technical installation and support efforts. A project manager can assist with organizing overall efforts for new installations and management of facility issues. Price per location or multi-building campus.	
<input type="checkbox"/> Embedded Application Engineer Stanley Embedded Application Engineers work at the customer location to provide job design, drafting, and RFP assistance. An application engineer can assist with processing new work estimates, maintaining CAD as-builts, and customer specific implementation requirements. Price per location or multi-building campus.	
<input type="checkbox"/> Embedded Program Manager Stanley Embedded Program Managers spearhead the overall embedded progress at the customer location. Activities include providing administrative and technical supervision of other embedded staff members, acting as the primary point of escalation for embedded staff for any issues with field installation and support, serving as the voice of the customer to executive management regarding client satisfaction, concerns, and strategic needs, as well as communicating with Stanley field leadership to ensure project and service metrics objectives are being achieved.	
Technical Assistance Center (TAC)	
<input type="checkbox"/> Technical Assistance Center Support TAC is included for customers with a Stanley CSS Service Plan, Preventative Maintenance or Fire Alarm Test & Inspection Plan.	
Advanced System Knowledge and Training	
<input type="checkbox"/> Training Package	(1 Hour, 1 Annual Session)
